Since individual outcomes may be of little practical interest, or because there may be prohibitively (even infinitely) many of them, outcomes are grouped into sets of outcomes that satisfy some condition, which are called "events." The collection of all such events is a sigma-algebra.. An event containing exactly one outcome is called an elementary event.

Constructivism is a philosophical viewpoint about the nature of knowledge. Specifically, it represents an ontological stance.. There are many flavors of constructivism, but one prominent theorist is Jean Piaget, who focused on how humans make meaning in relation to the interaction between their experiences and their ideas. He considered himself to be a genetic epistemologist, meaning he was ...
